

Dear member,

I am delighted to welcome you into the SEIU Local 2 family. You now share in the power of a Union with over 20,000 members across Canada. This union advantage means better wages, more job security, and support with any work issues.

SEIU Local 2 began its history in 1902, first representing brewery workers in Toronto. Now the Union represents workers in many industries, including janitorial, hospitality, food and drink to name a few. SEIU Local 2 has over 100 years of improving the lives of working people. You are now a part of this history and will be able to contribute towards its future.

SEIU Local 2 is committed to open communication with its membership and democratic input. We have provided this new member package to equip you with all of the knowledge and materials you will require to participate fully in union business, and have your voice accounted for in the Union's future direction.

In this package, you will find:

1. Constitution of SEIU Local 2: This outlines the fundamental rights and responsibilities you have as a member of our Union;
2. Summary of the Constitution: this describes the most relevant parts of the Constitution;
3. Collective Agreement: This outlines your rights at work and provides all the details to guide your relationship with your employer;
4. Workplace issues flowchart: If you have a problem or question about a workplace issue, this sheet shows you the process to take to resolve it;
5. New Members Survey and postage-paid envelope: This is a short survey that we use to learn more about our membership. Please take the time to fill it in and send it back using the postage-paid envelope
